April 12, 2014: The Era of Cloud Computing is coming
Headline: The Era of Cloud Computing is coming

Sub-headline: Prof. Rajkumar Buyya from the University of Melbourne gave a lecture on the future of Cloud Computing at a seminar in MANIT and RGPV on Saturday.

Inset headline: This is the right time to build a career in Cloud Computing

Article: Prof. Rajkumar Buyya gave guidance to students about Cloud Computing in a seminar in RGPV. He told the students that this is the right time for a career in Cloud Computing. In addition to a course in Cloud Computing, specialized training in software is also necessary for a good career. He said that there are many challenges in Cloud Computing. Providing security for such a large amount of data is one such issue. Many large companies across the world are using Cloud Computing. Prof. Buyya has written 2 books on Cloud Computing.

Additionally, he has published over 450 papers. In the program, the Chancellor of RGVP, Prof. Piyush Trivedi, announced a training program by RGVP on Cloud Computing. He said that RGVP is starting programs in Cloud Computing, Big Data, and Analytics. Periodic training in these fields is necessary to build up the students’ knowledge in these fields. In addition to students of Computer Science and IT, students from other fields can also make a career in Cloud Computing.
