In his inaugural address, Dr T. R. Narayanan, dean of MECIT, said: "The Sultanate has a well planned and comprehensive strategy on ICT and the conference is in sync with the objectives of the government. The strategy addresses a range of subjects including infrastructure, capacity building, e-governance, use of ICT for sectoral and social development, improving organisational efficiency, encouraging ICT industry and entrepreneurship, etc.

Prof. Ian Marshall, deputy vice-chancellor, Coventry University, UK, giving his keynote address said ICT is a medium of creativity and innovation, and outlined its immense potential in the field of education, healthcare and agriculture.

OPINION**Viewpoint**

Speaking on the subject "What have serious games ever done? serious learning, serious fun or just seriously expensive?" he said serious games are used these days in education and training; marketing, advertising and public relations; staff recruitment; social and social policy messages and health improvement.
